Our paintball site is located on the backside of RAF Molesworth, part of an old Second World War Airfield with bunkers, once used for bomb storage. Over the years that this program has been in operation, this scrubland site has matured with a good cover of tree and vegetation. It consists of four individual fields, where a variety of scenarios can be played. Upgrades are ongoing.

Our equipment, including Tippman markers are serviced regularly and kept in A1 condition. We also provide head protection.

Open Games

We operate a regular open game each month; game day during the summer is 11:30 – 16:00, while in winter it is 11:30 – 15:00. Advanced sign up is required for these days and there may be an incentive to sign up early on some of the games. This can be done either by popping in to the ODR store at Alconbury or over the phone (268-3734). Payment is required in full at the time of booking by credit or debit card. These days are open to players aged 12 and over. Players under the age of 18 require a signed waiver form to be completed by their parent or guardian. Parents/guardians need to understand that these days are aimed at adults and their youth will be treated as such.

During game day we will play a number of games of various duration depending on the group to include a close out game. The number of games played will all depend on how quickly the games finish and how quickly they can be turned around. The fun of short games is that you never have to wait too long before you are back in play. This, however, can be tailored to the requirements on the day.

Our aim is to provide a great introduction to this exhilarating program, at an affordable cost and providing a safe environment for this experience. Our staff has many years of experience and adjusts each activity day to suit the clientele playing (number of players, experience and age)

Youth games can be privately organized for 10 – 13 year olds. This game day will have extra boundary controls which enables this age group to play this exciting activity. Ideal for birthday party planning.
